

Providing Quality Welding, Machining, and Fabrication Services Since 1979

What started as a small one-man welding shop has turned into a company that is considered the ultimate solution when complex welding and machining assignments arise. Over the years Lynn Welding has diversified its offerings, increased capacities, expanded its list of certifications and, become one of the most well-known names in welding and machining for the Aerospace and Defense industries.

Delivering Certainty

At the core of Lynn Welding is our commitment to delivering certainty.

To Our Customers

Lynn Welding works to deliver certainty to its customers by prioritizing communication and reliability. Our team is trained to offer clear, concise, and frequent communication so our customers always know the status of their orders.

To Our Team

Delivering certainty to our team means providing a safe and stable work environment where our employees and their families feel supported. Our leadership team works hard to ensure that all our employees will continue to have work and be satisfied with the company they are representing for years to come.

Our Services

Welding

Our strengths in welding are focused around 3 core functions, Resistance Welding (spot & seam), Fusion Welding (tig/mig) and, Brazing. We hold NADCAP accreditations for each of these offerings.

Machining

Our state-of-the-art machine shop offers wire EDM, 5-Axis Milling, and CNC Turning.

Fabrication

Our team specializes in Aerospace Tooling, Aerospace Fabrication, and, Military Fabrication services. We have over 60 years of combined experience in fabricating assemblies such as tube assemblies, duct assemblies, crew door components, and many other aerospace assemblies.

“

Lynn Welding has always provided excellent service and been flexible to our needs, We always appreciate that our points of contact take the time to make adjustments in work scope and turn time as required. In all, Lynn Welding continues to be a valued partner who we trust in our plan for success.

”

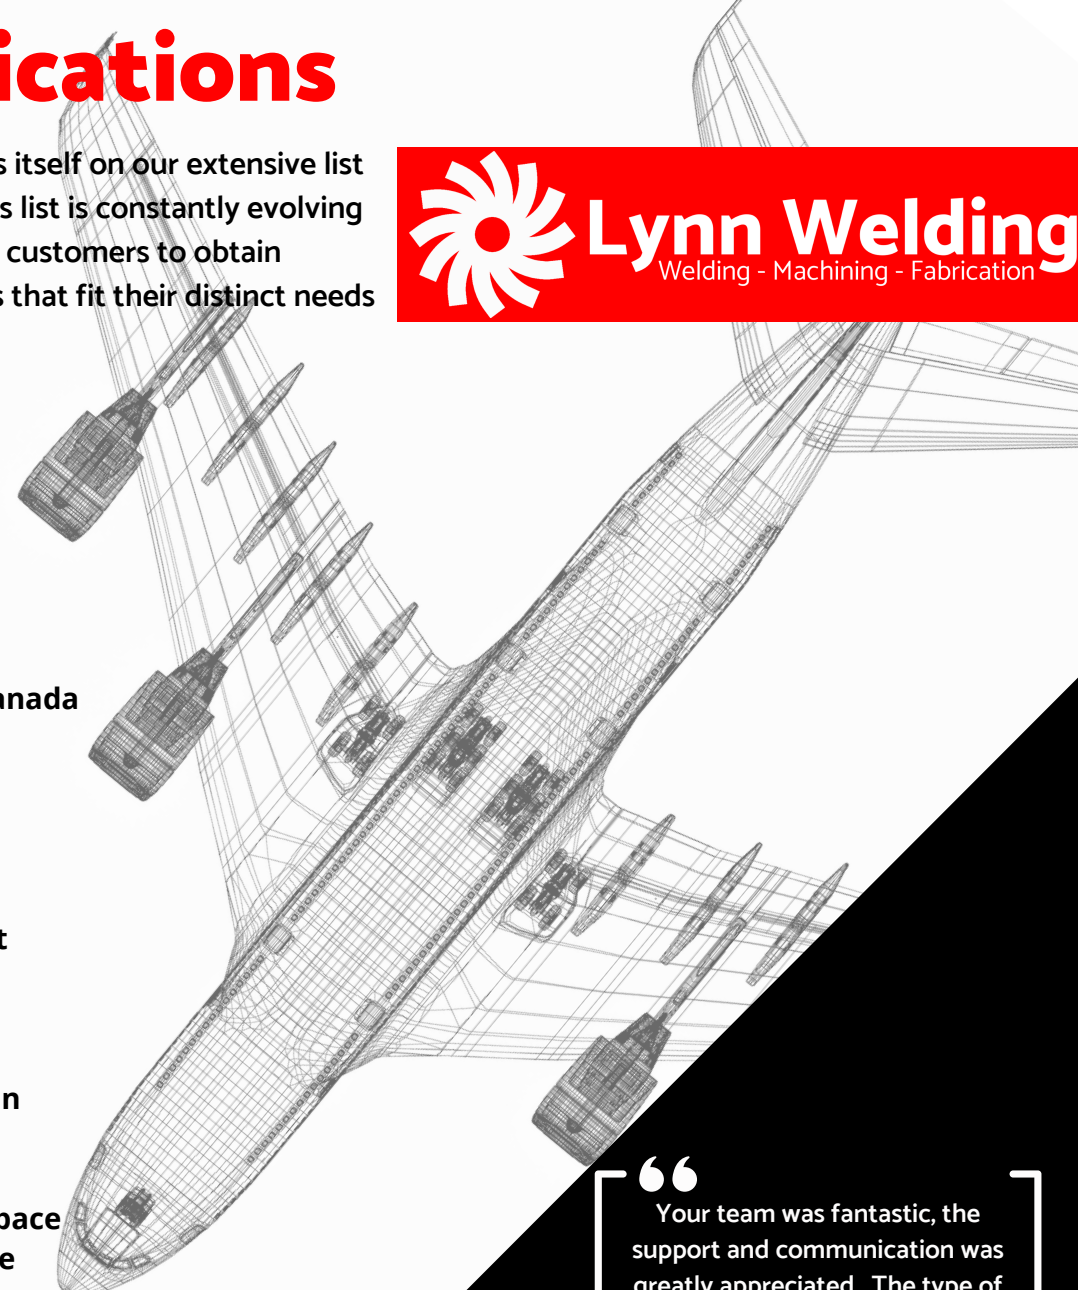

Certifications

Lynn Welding prides itself on our extensive list of certifications. This list is constantly evolving as we work with our customers to obtain additional approvals that fit their distinct needs
